

WHO WE ARE

With offices in Edmonton, Calgary and Yellowknife, McLennan Ross is an established law firm committed to serving the legal needs of our clients in Alberta and the North.

McLennan Ross is recognized by *Canadian Lawyer* as one of the top ten regional law firms in western Canada. McLennan Ross lawyers are consistently recognized and ranked in legal directories and publications, including *Best Lawyers in Canada*, *The Canadian Legal Expert Directory*, *Chambers Global* and *Martindale-Hubbell* as top practitioners in energy, environmental and regulatory law.

A WELL EARNED REPUTATION

You can rely on our strong track record. Our Energy, Environmental & Regulatory group has earned an exceptional reputation in Alberta and the North for offering responsive, creative and cost-effective solutions to clients facing important energy, resources and environmental matters, including:

- Defence of environmental prosecutions and responding to environmental incidents
- Management of liability for contaminated sites
- Approval of oil and gas wells, pipelines, mines, power generation facilities and plants
- Environmental assessments of resource projects at both the provincial and federal levels
- Surface rights and expropriation
- Representing and advising municipalities on environmental issues
- Rate hearings in the electricity, pipeline and natural gas industries
- Waste management, including hazardous waste sites
- Water law
- Climate change issues, including reporting obligations, commercial transactions and carbon capture and sequestration
- Transmission sitings

WHY MCLENNAN ROSS?

Among the benefits McLennan Ross Energy, Environmental & Regulatory lawyers can offer you are:

- Practical advice on how to operate in Alberta and in the North, based on our knowledge of resource industries and affected stakeholders
- Strong relationship and reputation with the energy and environmental regulators
- Effective counsel for successful hearings and litigation
- Cost-effective service
- Close links to our Occupational Health & Safety professionals
